SUMMARY

A passionate software developer with almost 2 years of experience building scalable web and mobile applications. Focus on creating efficient, user-friendly, and modern digital solutions that help businesses grow and innovate.

SKILLS

- | | | | |
|----------------|--------------|-----------|------------------|
| • React.js | • Express.js | • Redux | • Postman |
| • Next.js | • Node.js | • Zustand | • Codeigniter 4 |
| • React Native | • Mongo DB | • JWT | • REST APIs |
| • TypeScript | • PostgreSQL | • PHP | • GitHub Actions |
| • Tailwind CSS | • SQL | • Laravel | |

WORK EXPERIENCE

Full Stack Developer, Hackite Infotech - Thrissur

Sep 2025 - Present

- Developing scalable and responsive web applications using modern frameworks and tools like React, Express, Tailwind CSS
- Collaborating with design to build interactive and user-friendly interfaces.
- Clean architecture and optimized frontend workflows for faster development.

Frontend Developer, Fuinss Software Solutions - Calicut

Apr 2024 - June 2025

- Built mobile applications using React Native with seamless UI/UX, navigation, and API integration.
- Developed and maintained responsive web applications.
- Collaborated with designers and backend developers to translate designs and APIs into functional, pixel-perfect interfaces.

EDUCATION

Web Developer Bootcamp

Dec 2024 - Feb 2025

Udemy

- Specialization in Full-Stack Web Development, modern JavaScript and backend architecture
- Portfolio of real-world projects

Bachelor of Science in Computer Science

July 2021 - Mar 2024

Calicut University

- Relevant coursework Data Structures & Algorithms, Object-Oriented Programming and Database Management Systems.

PROJECTS

AI-Powered Resume Analyzer

A web application that evaluates resumes for ATS (Applicant Tracking System) compatibility. Users can upload their resumes, input job details, and instantly receive an ATS score with detailed insights.

- Implemented secure authentication, optimized performance, and improved UI responsiveness for a fast, accessible, and reliable user experience across devices.
- Integrated AI-powered text analysis with Puter.js to calculate ATS scores dynamically based on job title, company, and job description inputs.
- Built an interactive and responsive web app to deliver a seamless user experience.

Tech Stack: React, TypeScript, TailwindCSS, Puter.js

HipHop – Feature rich e-commerce app

A full-featured MERN stack e-commerce application offering a smooth, scalable, and modern shopping experience focused on urban and hip-hop lifestyle products.

- Implemented complete e-commerce functionality including product listings, search and filtering, cart management, checkout, and order tracking.
- Integrated PayPal payment gateway for secure and fast transactions.
- Added user authentication, role-based access control, and optimized backend APIs for scalability and performance.

Tech Stack: React, Node.js, Express, TailwindCSS, Mongo DB, Redux, PayPal

GitHub Repo: <https://github.com/xhaadh/mern-ecom>

Food Delivery Mobile App

A full-stack food delivery application built with React Native, offering authentication, dynamic search, filters, cart functionality, and a smooth navigation experience.

- Implemented secure user authentication, dynamic search, category filters, and cart management with seamless navigation using Expo Router.
- Integrated Appwrite as the backend-as-a-service solution, handling database operations, user authentication, and file storage for product assets.
- Designed a modular architecture emphasizing scalability, reusability, and smooth user experience with optimized UI rendering and transitions.

Tech Stack: React Native, Expo, Appwrite, TailwindCSS, Zustand

GitHub Repo: <https://github.com/xhaadh/food-delivery>

STRENGTHS

- Being a good team-player
- Thinking outside the square
- Problem Solving
